## *Discovering Rooibos’ Miracles*

Generations of South Africans have enjoyed the natural sweet and revitalising taste of Rooibos since botanists discovered it in 1772. Little did they realise at the time, the powerful and natural healing properties of this rare and unique plant from the cold, windy, South Western tip of Africa.

### *1968 – An amazing discovery*

Dr Annique Theron fortuitously discovered the natural healing powers of Rooibos when, one sunny April morning in 1968, she warmed her allergic baby’s bottle of milk, with warm Rooibos tea. Annique was amazed at the instant calming, soothing and healing effect it had on Lorinda, her baby daughter of fourteen months. Annique set out to investigate this tea’s healing potential and found she stood alone in her discovery of its antiallergic qualities at that time. However, she soon found hundreds of mothers with similar problems, varying from food allergies to eczema, insomnia and hyperactivity in their babies and children. Annique published her findings about allergies in children and adults in her book “Allergies: An Amazing Discovery”.

*“One of the greatest joys experienced in Annique, is the knowledge that our unique, world class, Rooibos-based health and beauty products, not only work effectively, but also adds immeasurable value in slimming, healing, beautifying and blessing everyone who uses them. This enables our consultants to not only contribute to the improvement of their clients and their families lives, but to also share a brilliant business opportunity that offers financial independence and empowers them to truly create life-changing opportunities.”*

*~ Ernest du Toit, CEO*

# colour caress

"I hardly ever use mascara, as my eyes are very sensitive and burn easily. It also causes dark black circles under my eyes. The Colour Caress LashXtreme Mascara is fabulous. I now boast the most unbelievable eyelashes, which I never thought I had. This is definitely the best mascara I have ever tried."
